MASTERING ICT AUDIT, RISK MANAGEMENT AND DATA GOVERNANCE: BUILDING FUTURE-READY & SCALABLE FRAMEWORKS

DURATION: 7 DAYS
DATES: 11TH – 17TH MAY 2025
VENUE: SEO HOTEL ,MACHAKOS

THIS EVENT WILL NOT BE CANCELLED OR POSTPONED

TRAINING OVERVIEW & OBJECTIVE

This program aims to strengthen expertise in conducting comprehensive internal audits within the information and communication technology (ICT) landscape. This program delves into the core principles of authentic internal audits, emphasizing risk control measures and effective data governance practices. Led by industry experts, participants will gain practical insights into conducting thorough ICT audits, implementing robust risk controls, and establishing sound data governance frameworks. Join us to acquire the essential skills needed to ensure authenticity and integrity in your internal ICT audits, contributing to enhanced risk management and data governance within your organization.

WHY SHOULD YOU ATTEND?

1. Develop skills in authentic internal ICT auditing.
2. Enhance expertise in effective risk control measures.
3. Acquire knowledge of best practices in data governance.
4. Gain practical insights from industry experts.
5. Strengthen abilities in conducting comprehensive ICT audits.
6. Implement robust risk control strategies.
7. Establish sound frameworks for data governance.
8. Contribute to enhanced authenticity and integrity in internal ICT audits.

WHO SHOULD ATTEND?

This specialized training is crafted for professionals engaged in information and communication technology (ICT), internal audit, risk management, and data governance roles. It is designed for individuals such as ICT auditors, risk control specialists, internal auditors, and data governance professionals who aspire to deepen their understanding and practical skills in conducting authentic internal ICT audits. Whether you are a seasoned professional looking to refine your expertise or a leader dedicated to bolstering risk control and data governance within your organization, this program offers valuable insights and practical strategies tailored to the intricacies of internal ICT auditing. Join us to equip yourself with the knowledge needed to ensure authenticity, effective risk control, and sound data governance in your organization's internal audit processes.

We look forward to adding value to your learning & progress!
